

Clark Forklift Attachment

Clark Forklift Attachments - Presently, there are no less than 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specific items designed for 20 exclusive designs of forklifts and automated equipment. Your local Clark Seller is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really amazing international support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark has a uncompromising goal to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the very economical and beneficial structure of "Lean Production" for its assembly plants and use of resources. This system was developed to acknowledge the most efficient method of manufacturing facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and brilliance of their merchandise while minimizing costs. The contemporary value engineering program combines modern product improvement and delivers improved customer support and service within the industry.
