

## Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly established on a one hundred year tradition of quality and service. They concentrate on different integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused employees. These top-caliber people could quickly get used to to changing surroundings and freely demonstrate the level of performance and commitment required to be able to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers their staff different opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which consist of drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located around the world in 19 nations and in 5 different continents.

They have their supplier network which is specifically situated so as to support the growth of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the trade. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business methods and implement lean methods.
