

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader business around the world. They are a dedicated maker of spreaders utilized for lots of various applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of making use of all of the newest FEM tools and CAD systems. The ELME company presently employees more than 125 staff members. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product series offers spreaders meant for different trailer and container handling operations. A few of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a huge range of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by means of utilizing quality components so as to ensure reliability and high standards. Major characteristics of ELME consist of design simplicity, market reaction and innovative modular spreader concept.
