

## Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment could automatically activate to both unload and release as soon as the bumper release touches the side of a dumpster. When dumping is finished, the hopper could return to original locked and upright position. This particular piece of machinery even comes along with a cable which allows operation from the seat of the forklift to be able to have the choice of manually dumping the hopper. There is a locking chain provided to lock the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper likewise has a blue powder coat finish to be able to maintain durability.
